Vehicle Qty	138
Consist	ScR (37 x 3-Car), SPTE (9 x 3-Car)
Traction Type or Power Supply Type	422 bhp 315kW @ 1900 rpm – MTU Engine
Max Speed	100 mph

Delivered in 1998 and 1999 the Scotrail Class 170/4 fleet features 9 first class seats in both ends of the first 15 units, but in only one end of the last 10 units. The units operate medium distance fast services in Scotland, including the frequent Edinburgh – Glasgow service. Interiors use Chapman seats, trimmed in purple against grey wall panels. Turbostar standard features of air suspension, PIS system, twin-system air conditioning and powered interior doors are all installed. Most units have the first group livery applied, the example above is in Strathclyde PTE colours
